

Up to A+ ENERGY Rated

PlatinumNRG

THE 'ULTIMATE' ENERGY-EFFICIENT WINDOW

STANDARD FEATURES

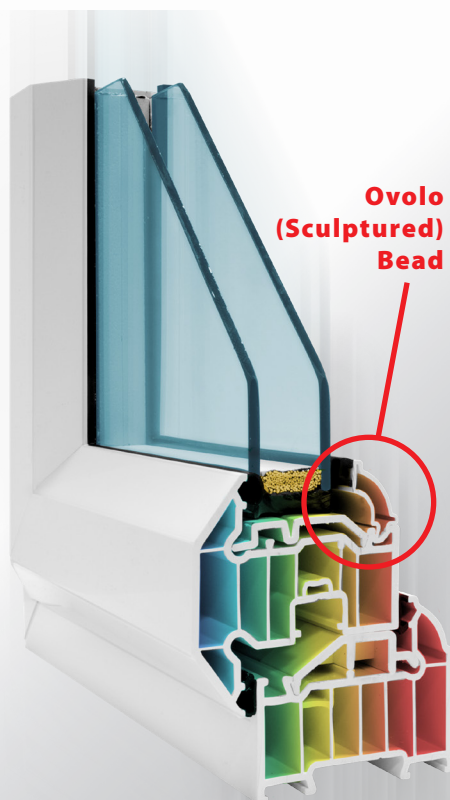

Internally glazed for enhanced security

WindowWISE

Craftsmanship, Quality & Customer Care

SAVE ENERGY, SAVE MONEY...

MANUFACTURE

PlatinumNRG® windows are manufactured locally in compliance with the very highest industry standards, using environmentally friendly lead-free PVCu from Linar, one of the leading British profile extruders. Available in white, various woodgrains or any British Standard RAL colour. **PlatinumNRG®** windows are available in a choice of either a conventional slim line chamfered profile or alternatively, a more classical ovolo (shaped) profile.

SECURITY

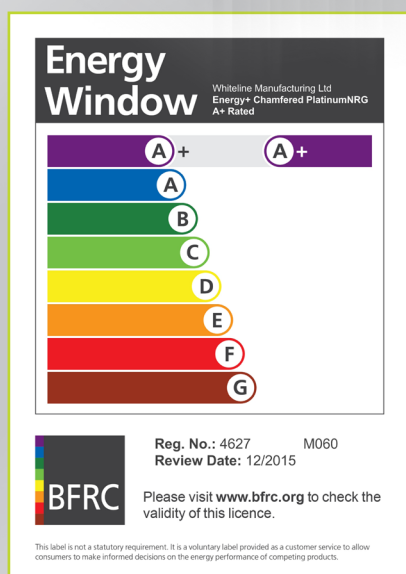

All opening casements and fanlights are operated with tough, durable key-locking, push button handles in a wide choice of colours and finishes. Each opening vent has up to seven locking points, comprising of concealed hinge bolts, two shoot bolts, two roller cam bolts and a central bi-directional deadbolt. For additional security, all **PlatinumNRG®** windows are internally glazed and conform to BS7950, the very latest British Standard for enhanced resistance to intrusion. Feel safe in the knowledge our window system has been engineered to meet the most stringent security standards in the country.

GLAZING

PlatinumNRG® windows utilise the very latest glazing technology. These double-glazed units incorporate the latest SGG Planitherm® glass. The outer pane allows optimal amounts of the sun's energy through the glass into the room allowing the benefit of free solar heating. The inner pane uses an advanced glass coating technology that reflects the heat from inside back into the room. These glazing units offer up to 3 times more thermal insulation than standard double glazing and 20% better than Low-E thermally insulating glass. Combining SGG Planitherm® with NRG frames enable Window Wise to offer as standard and at no additional cost, the 'A'-Rated, energy-efficient **PlatinumNRG®** window.

GUARANTEE

Both the product and workmanship provided by Window Wise is covered by our own comprehensive guarantee as well as by an additional underwritten guarantee administered by the Glass and Glazing Federation (GGF). As well as being a FENSA registered company (self-certifying compliance with current building regulations), Window Wise is a member of the GGF and so consequently undertake to work within their guidelines of good practice.
